### PROFESSIONAL SUMMARY

Final-year BCA student specializing in Full-Stack Web Development and Database Management. Proficient in Python, Java, JavaScript, React.js, PHP, and MySQL with hands-on experience developing responsive, dynamic, and database-driven applications. Strong in testing, debugging, and version control, eager to contribute to software or web development roles.

### TECHNICAL SKILLS

- Languages: C, C++, Java, Python, PHP
- Web Technologies: HTML, CSS, JavaScript, React.js
- Databases: MySQL, SQL, PhpMyAdmin, DBMS
- Tools & Platforms: Git, GitHub, VS Code, XAMPP, FileZilla
- Core Competencies: Full-Stack Development, Debugging, OOP, DSA, Software Testing, Cloud Computing, Data Science
- Professional Tools: Microsoft Excel, PowerPoint, Canva

### PROFESSIONAL EXPERIENCE

- Software Development Intern – Huda's Technologies | Apr 2024 – Sept 2024
  - Contributed to the full development lifecycle of multiple client-based web applications.
  - Designed and implemented responsive user interfaces and dynamic backends using HTML, CSS, JavaScript, PHP, and MySQL.
  - Conducted rigorous testing and debugging for over 10+ modules to ensure seamless functionality and optimized performance.
  - Managed website deployments via FileZilla (FTP) and maintained version control using Git.
  - Documented technical workflows, including bug reports, client feedback, and QA results, to streamline collaboration.
  - Key Outcome: Delivered functional, high-performing websites that enhanced client satisfaction and strengthened full-stack development and communication skills.

## PROJECTS

- E2E Tech – Dynamic Service & Lead Management Website
  - Developed a mobile-responsive, database-driven website with service inquiry and quotation modules using PHP and MySQL.
  - Built an admin panel for secure lead tracking, filtering, and CSV export, improving data handling efficiency by 40%.
  - Integrated Chat Base API chatbot to automate FAQs and reduce client response time by 50%.
- College Inquiry Chatbot System
  - Designed and implemented a keyword-based chatbot using Flask and SQL, automating real-time responses for college inquiries.
  - Integrated backend logic to dynamically fetch and display responses via JavaScript, improving user engagement.
  - Reduced manual inquiry workload by 70% and improved accessibility for students and visitors.
- Huda's Technologies Website Revamp & QA
  - Revamped and debugged the company's official website to fix broken links, layout issues, and UI inconsistencies.
  - Conducted cross-browser testing and responsiveness checks, enhancing performance and visual consistency by 80%.
  - Coordinated deployment updates via FileZilla (FTP) and optimized load speed for a smoother user experience.
